

Maryland Delaware Water Well Association PROGRAM CHANGES

CHANGE IN THE 2012 PROGRAM..... SORRY!

Please make a note that we have to change the February Convention program. Thursday, Feb. 9, 2012 CLASSROOM #3. "Maryland Water Samplers Class" books their scheduled classes a year ahead and would not be able to teach at MDWWA Convention on Thursday. We scheduled it for Thursday and it should have been Friday.

I got in touch with Larry Zinser, Master Water Conditioning Corp., and asked him if he would change his Friday, Classroom #2 back to Thursday, Feb.9, 2012. Larry was very agreeable and said he would do whatever he could to help.

I had to explain this to you as I thought the program was great this year and did not expect we would have a change. So let it be known that Thursday, Classroom #3 will be "Water Treatment Technologies for 2012" Instructor, Larry Zinser. Friday, Classroom #2 will be Maryland Water Samplers Class", Rural Water Association, Larry Richardson, Instructor.

Anyone that has already registered for either of these classes, I will get back to you and change your registration as to what you would like.

SORRY FOR THE CHANGE. THANKS AGAIN TO LARRY ZINSER AND LARRY RICHARDSON.
